Overview of Submission Techniques in MMA and BJJ

The Importance of Side Control and Top Position

In grappling arts such as Brazilian Jiu-Jitsu (BJJ), submission wrestling, and mixed martial arts (MMA), position is everything. Side control and other top positions serve as launching pads for submissions, offering control over an opponent while creating opportunities to attack. Mastering submissions from these dominant positions can significantly increase your chances of finishing a bout.

Key Principles for Effective Submissions

- Control First: Maintain dominant position to limit opponent's escapes.
- Set Up Properly: Use feints, grips, and movement to create openings.
- Precision and Timing: Execute submissions with accuracy and at the right moment.
- Flow and Transitions: Seamlessly switch between techniques to keep opponents guessing.

Core Concepts Covered in Submission Machine Book 3

Advanced Side Control Techniques

The book emphasizes not only traditional side control but also innovative variations that enhance control and submission options. These include:

- Kesa Gatame Variations: Modifications to standard scarf hold for better leverage.
- Crucifix Control: Isolating an arm for high-percentage submissions.
- Neck and Shoulder Pressure: Using weight distribution to fatigue and destabilize the opponent.

Top Submissions Mastery

The book details a wide array of submissions from the top position, focusing on:

- Chokes: Guillotine, Baseball bat choke, and bow and arrow choke.
- Joint Locks: Kimura, Americana, and keylock variants.
- Crucial Transitions: How to move swiftly from control to submission.

Top Side Submissions in Detail

Key Techniques from the Side Control Position

- Americana (Figure Four Shoulder Lock)

- Description: A shoulder lock targeting the opponent's arm by isolating the elbow and applying pressure across the shoulder joint.

- Setup: Use your chest control to pin the opponent's arm, then secure their wrist and elbow for leverage.

- Tips: Keep your hips close and maintain pressure to prevent escape.

- Kimura Lock

- Description: A double-wrist lock that targets the shoulder and elbow.

- Setup: From side control, isolate the opponent's arm by controlling their wrist and positioning your own hands to grip their wrist.

- Tips: Use your hips and body weight to increase pressure.

- Neck Cranks and Chokes

- Bow and Arrow Choke: Uses the lapel or gi grip to choke from top position.
- Cross Collar Choke: A versatile choke applied from side control using the collar grip.

- Shoulder Lock Variations

- Use leverage and body positioning to lock the opponent's shoulder joint, forcing a tap or submission.

Top Submissions from Other Positions

While side control is emphasized, the book also covers top submissions from mount, north-south, and knee-on-belly positions. Each position offers unique submission opportunities:

- Mount: Armbar, collar choke, and Ezekiel choke.
- North-South: Chokes and neck cranks.
- Knee-on-Belly: Transition to submissions or maintain control for strikes.

Training Strategies for Side Top Submissions

Drilling Techniques

To master these submissions, consistent drilling is vital. The book recommends:

- Flow Drills: Transition smoothly between control positions and submissions.
- Resistance Training: Practice against resisting partners to simulate real fight conditions.
- Position-Specific Sparring: Focused sparring rounds from top positions.

Common Mistakes to Avoid

- Poor Weight Distribution: Losing pressure allows escapes.
- Telegraphing Submissions: Being too obvious gives opponents time to defend.
- Neglecting Transitions: Relying on a single technique limits options.

Strategic Considerations

When to Attack

- Recognize openings created by your opponent's movement or mistakes.
- Use feints and movement to set up submissions from top control.

Defensive Awareness

- Always be aware of your opponent's escapes and counters.
- Maintain tight control and readiness to switch techniques if necessary.

Incorporating Concepts from Submission Machine Book 3

Systematic Approach

The book advocates a systematic methodology that involves:

- Position Control: Establish and maintain dominant positions.
- Gradual Setup: Work through gradual progression to secure submissions.
- Flow and Transitions: Seamlessly move between submissions to keep your opponent off balance.

Combining Techniques

Learn to combine different submissions into chains, such as transitioning from an Americana to a Kimura if the opponent defends one.

Practical Tips for Success

- Consistency: Regularly practice key techniques.
- Video Analysis: Study footage of top practitioners executing these submissions.
- Feedback and Coaching: Seek guidance to refine your technique.
